CRAZY JANES

Established in 1996, Crazy Jane's is a full service interior design firm and retail showroom. Owner and designer Tom Holley has traveled around the country pursuing his longtime dream of working for himself and creating his own niche in Charlotte design.

“People need to be surrounded by comfortable beauty on a daily basis, and it all starts at home.”

Fast forward 21 years, and Holley actualized that dream right here in the Queen City to great success with his business. And today, he is still working with his first design client ever. Crazy Jane's works with a wide variety of clients, ranging from residential family projects to commercial bank and medical clients. In addition to full and partial designs, Holley offers reupholstery, as well as wallpaper and drapery services.

Crazy Jane's is on the upward path, recently relocating to a 4,200 sq. ft. showroom space. The store has an industrial aesthetic with full luxurious home furnishings at all price levels.

Crazy Jane's retails a vast array of top of the line custom bedding, upholstery, lighting, art, accessories, rugs, reclaimed wood, and outdoor furniture. Holley brings his personal eye for design to the store's offerings. His design specializes in modern twists on Turkish, Moroccan, and Indian themes while offering services in locations across the U.S., from the Carolina mountains to the coast and beyond.

“The experience of helping clients build a beautiful environment and the lasting relationship that develops is the foundation of Crazy Jane's,” Holley says. “One of the goals of Crazy Jane's is ensuring that the client has a fun and enjoyable experience while we take over the stressful, behind-the-scenes work.”
